Career Preference Outline

The Career Service Board notes 25X1A9a career interests. Insofar as they are related to priority intelligence requirements for work in her areas of responsibility, she is encouraged to develop further her capabilities.

It is noted that she has taken steps to broaden her substantive background by completing the Arctic Environment course at Stanstead College, Quebec, this past summer. Appropriate development in Polar area research proficiency should be undertaken as time permits.

MEMORANDUM FOR: Chairman, ORR Career Service Board

SUBJECT: Career Preference Outline Of 25X1A9a

1st Indorsement

A. COMMENTS BY (DIVISION) (STAFF) CHIEF

25X1A9a

25X1A9a

I concur, in general, with 25X1A9a comments, but I would like to emphasize the importance of retaining 25X1A9a research capability on Western Hemisphere areas in view of this Division's commitments to the MIS Program and to other ad hoc geographic intelligence requirements that may arise affecting that area.

2nd Indorsement

B. COMMENTS BY AREA CHIEF (When Applicable)

☐ I concur in (Division) (Staff) Chief's comments.

☐ As the employee is not personally known to me, I accept the comments of the (Division) (Staff) Chief.

☒ Other (please specify):

25X1A9a

25X1A9a already substantial capability for handling ad hoc geographic intelligence requirements on Latin America should not be allowed to atrophy. In addition, she should be encouraged to build a competence for Antarctic intelligence surveillance activities. The wise use of her time and the encouragement for development of research capability through work experience will depend to a large degree upon a sympathetic appreciation of the diversified responsibility imposed by her unique assignment and the difficulties inherent in being "spread so thin".
